SUMMER TERM CALENDAR

June 17-21	Registration for Evening Classes
June 20-21	Registration for Day Classes
June 24	Classes Begin
July 4	No Classes
August 5	Second Semester Classes Begin
September 2	No Classes
September 14	Summer Term Ends
September 15	Commencement

ACCELERATED PROGRAM

Day students starting this June may be able to complete a full program of freshman and sophomore studies and be eligible for graduation with the Associate in Arts (A.A.) degree in September, 1947.

TWO SIX-WEEK TERMS AVAILABLE

Students may enroll for either one or two semesters' work in day classes. The first semester subjects will conclude on August 3, and the second semester subjects will start on August 5.

CONCENTRATED TEACHING

Many of the subjects given in day classes are taught on a concentrated plan enabling students to do two semesters' work in any subject in twelve weeks. However, in order to accommodate students who entered in February and March, most of the subjects started then on the regular semester basis will be continued this summer on the same plan. Thus, these students will complete a year's work in such subjects by the end of the summer.

Classes given in the evening ordinarily are taught on the usual semester plan providing for completion of only one semester's work during the twelve-week summer term. If evening students request the concentrated teaching plan, it will be arranged whenever possible.

CLASS SCHEDULES

Tentative schedules for both day and evening classes are available and will be sent on request. The class hour is seventy minutes; there will be seven periods in the day session and three periods at night. Full-time students may not carry more than 14 semester hours of work without special permission of the Policy Committee. Part-time students with outside employment obligations should not carry more than six semester hours.

SUBJECTS AVAILABLE DURING THE 1946 SUMMER SESSION

To acquaint students with the range of academic opportunities, the subjects offered are listed below. Many of these are given in both day and evening sessions. Those usually offered only at night are marked with an asterisk (*). Students attending college this summer will find courses available in the following curricula: Liberal Arts, Business Administration, Pre-Medicine, Pre-Dentistry, Science, Pre-Nursing, Engineering, Journalism, Pre-Law, Executive and Medical Secretarial Programs, Commercial Art, Merchandising, Accounting, Advertising, Salesmanship, and Small Business Management.

Business Mathematics
Introduction to Statistics*

STANDING OF THE COLLEGE

The Junior College of Connecticut is a co-educational and undenominational institution of higher education chartered by the Connecticut General Assembly and managed by a self-perpetuating board of trustees as a non-profit corporation. Founded in 1927, it is the first legally chartered junior college in the eleven north-eastern states and is fully accredited by all state, regional and national associations. Over 600 alumni have transferred their credits to 134 senior colleges and universities, where they have been accepted with third year standing. In addition to the transfer courses, many other courses are offered for persons interested in semi-professions as well as for those who want to study on a part-time basis for personal advancement.

ADMISSION REQUIREMENTS

For admission as regular students, applicants must be high school graduates and qualify under Plan A or Plan B. A detailed description of these requirements will be found in the Catalogue. Those who are not interested in college credits or degrees may apply for admission as special students to study whatever courses they are qualified to pursue. Special consideration will be given discharged service personnel and others whose formal education has been interrupted by the war. Persons interested in registering for the summer term should secure the proper application blank by addressing the college.

TUITION AND FEES

Students not previously registered are required to pay a matriculation fee of \$10 for day classes and \$5 for evening classes. Tuition is \$11 per semester hour. Other charges are as follows: laboratory fees \$1.50 to \$20; library fee, \$1.50; locker fee \$1. Late application fees: \$5 for day classes after June 15; \$1 for evening classes after June 21.

ADDITIONAL INFORMATION

The College offices are open Monday through Friday from 9:00 to 5:00 p.m. and until 1:00 p.m. on Saturday. Beginning June 17 the offices will be open until 9:00 p.m. Appointments can be arranged for other times.

†Preparation for State High School Diploma Equivalency Test

OPPORTUNITIES FOR VETERANS

The full accreditation which the College enjoys from the State Department of Education makes it possible for veterans to take advantage of the various federal and state plans such as Public Law 16, Public Law 346 (G. I. Bill), and the State Vocational Rehabilitation Plan. The College maintains a close relationship with the State Veterans' Office and the local Veterans' Advisory Center. A representative of these offices visits the College frequently to confer with veterans. During the second semester of 1945-46, a total of 591 veterans were in attendance, 375 of whom were in day classes and 216 in evening classes.

HIGH SCHOOL REFRESHER COURSES

Special programs have been arranged to assist veterans and others who are not high school graduates to make up secondary school deficiencies. These subjects include mathematics, general science, English, and social studies. The College does not issue a high school diploma, but accepts these subjects as secondary school units. Furthermore, as the State High School Equivalency Examinations are used as final examinations in these subjects, those who pass are entitled to the State High School Diploma.

PLACEMENT AND APTITUDE TESTS

All applicants for admission as regular full-time students must take the College aptitude and placement tests. These tests are comprehensive in character and require no special preparations. The guidance and testing fee is \$15.00. Students whose scores are low on the English tests are required to pass English A, a non-credit course in remedial English, before they may enter the College course in Freshman Composition.

LOCATION AND CAMPUS

The College is located at 1001-15 Fairfield Avenue in Bridgeport, Connecticut, and the campus occupies approximately three acres fronting on both Fairfield Avenue and Fremont Street. The facilities include the Main Academic Building, which houses administrative offices and classrooms, South Hall, a classroom annex, the Little Theatre, and Wistaria Hall and Fremont House, women's dormitories. The campus is attractively landscaped and includes a tennis court and a playing field. Beautiful sandy beaches on Long Island Sound are within two miles of the campus.

RESIDENCE FACILITIES

During this summer the College will maintain Wistaria Hall for women students and Fremont House for men students. There are accommodations for 30 young women in Wistaria Hall and 24 places for young men in Fremont House. Both dormitories will be supervised. All resident students will take their meals in the dining room in Wistaria Hall. Resident student rates for the summer term are \$350 for tuition, fees, board, and room.

ENROLLMENT FIGURES AND EXPANSION PLANS

During the second semester of 1945-46 the College had the largest enrollment in its history with a total of 1,131 students in attendance; 585 of these attended day classes and 546 evening classes. Plans are being made for approximately 800 students this summer, 500 in day classes and 300 in evening classes.

The College has recently acquired three new residences which will be used as additional dormitories when the fall term opens. It is expected that living accommodations in the fall will be provided for 75 young men and 75 young women. In addition to the Fairfield Avenue location, the College has another site at Seaside Park on Long Island Sound. Included in this campus is the former estate of the circus magnate, P. T. Barnum, where the College plans to develop its permanent campus.

SCHOLARSHIPS AND WORK ASSISTANCE

The Board of Trustees has provided \$1500 in competitive scholarships for qualified high school graduates. There are five scholarships for \$200 and five for \$100. In addition, students wishing to earn a part of their College expenses may receive up to \$150 a year through work assistance grants. Those interested in obtaining further information should write the Scholarship Committee.
